

## ZRAKOVÉ VNÍMÁNÍ

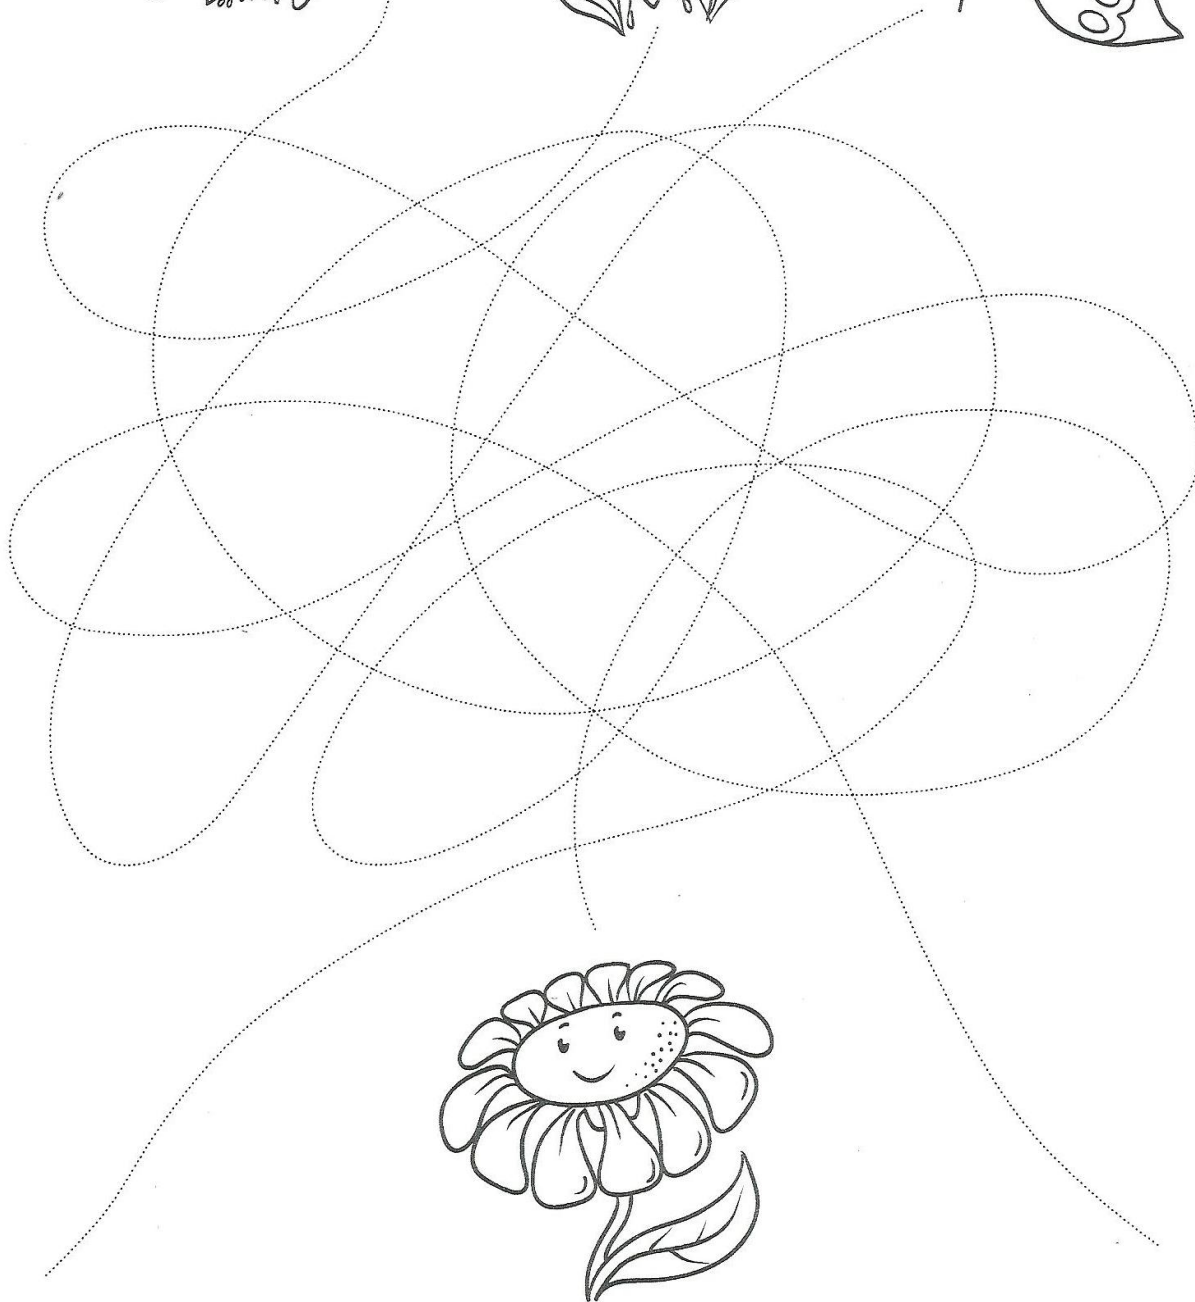

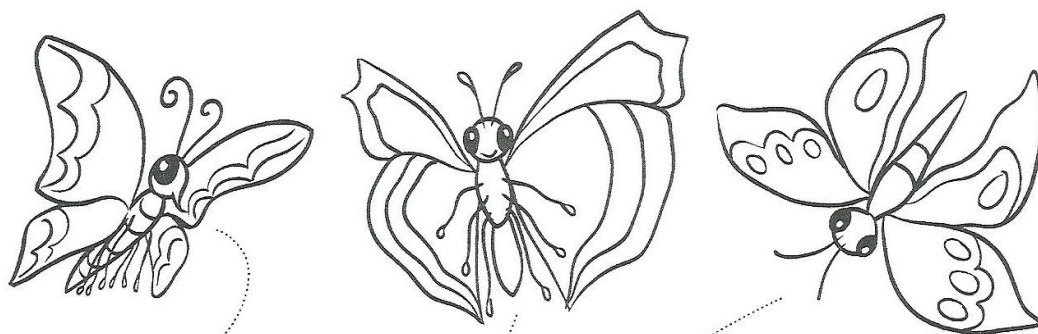

Obrázky se nakreslily přes sebe. Pojmenuj, co na nich vidíš.

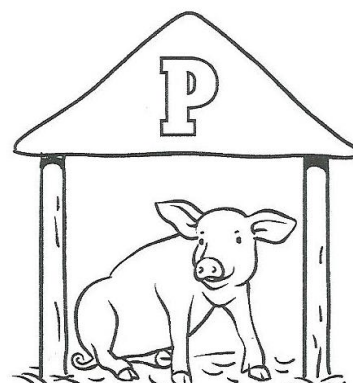

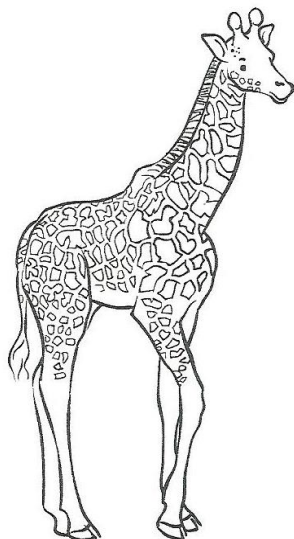

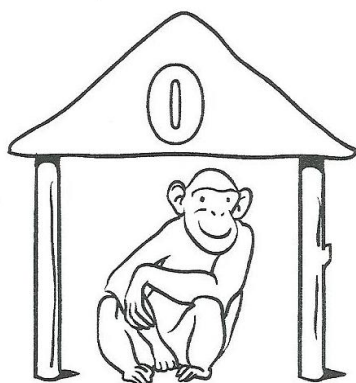

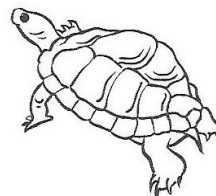

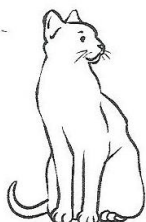

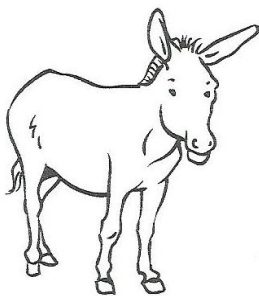

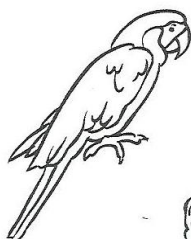

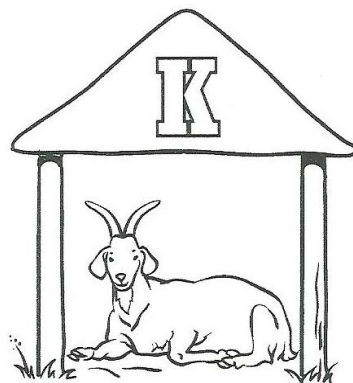

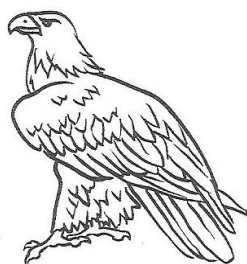

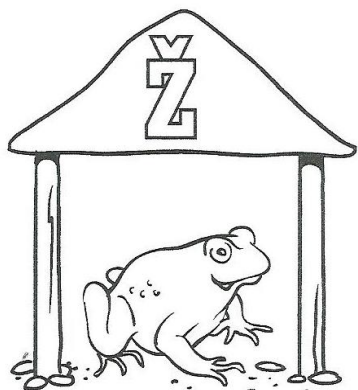

Jeden motýlek si sedne na kytičku. Který to bude? Až motýlka najdeš, vybarvi ho i kytičku.

## SLUCHOVÉ VNÍMÁNÍ

V každém domečku bydlí zvířátko, které začíná na jinou hlásku. Nejdříve zvířátka pojmenuj a potom je spoj čarou s domečkem, do kterého patří. Zvířátka si vybarvi.

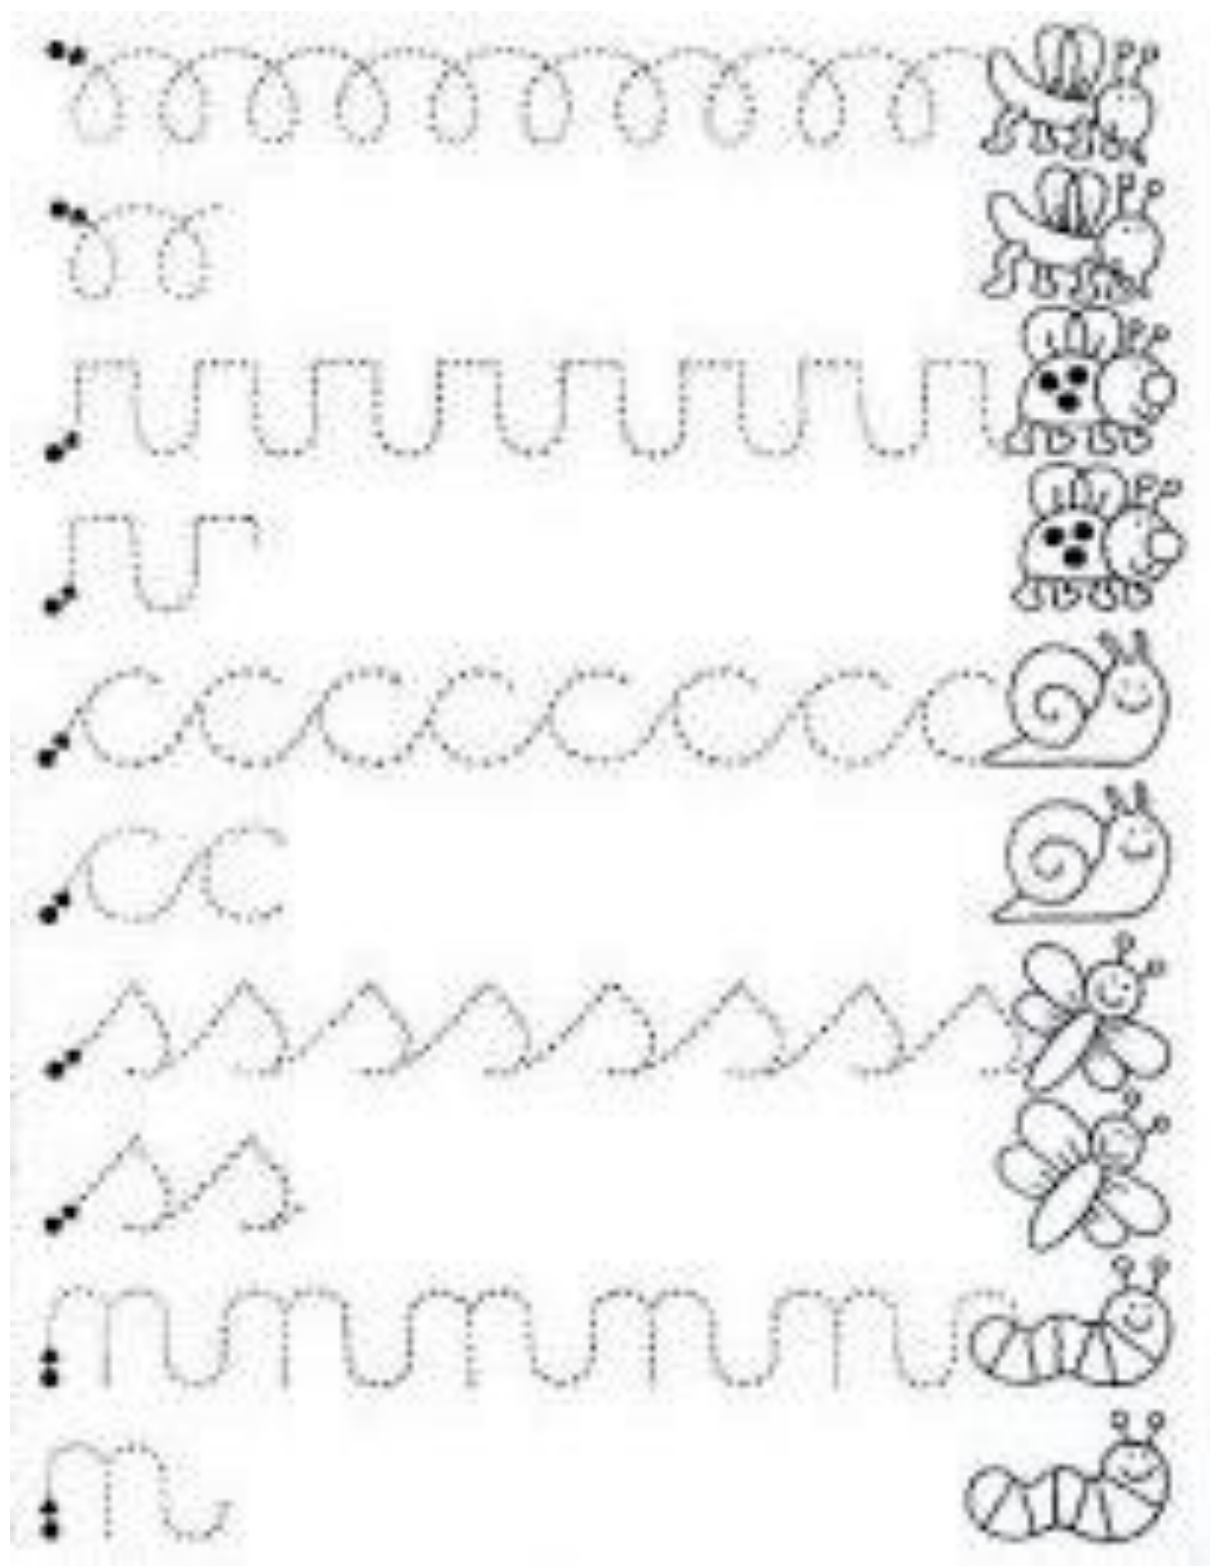

Pojmenuj obrázky, vytleskej slabiky, urči první písmenko. Spoj čarou obrázky, které začínají stejně.

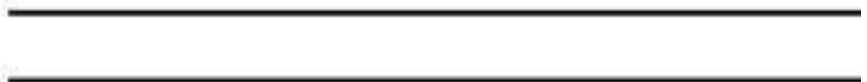

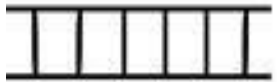

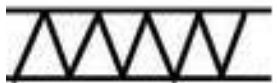

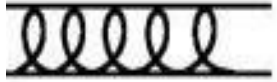

# GRAFOMORIKA

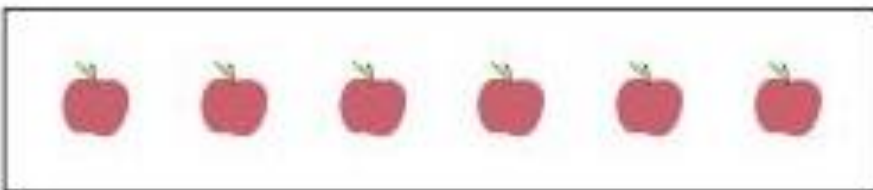

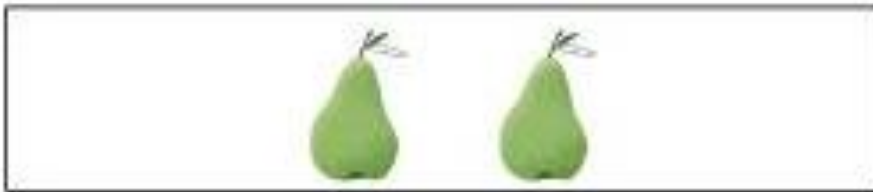

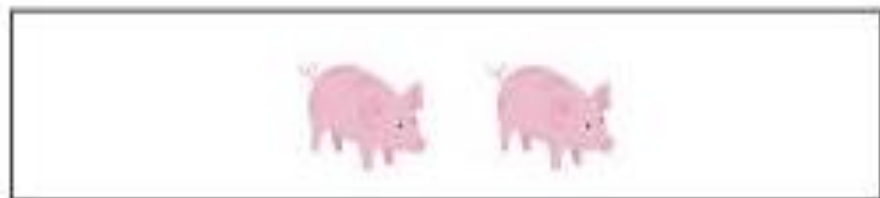

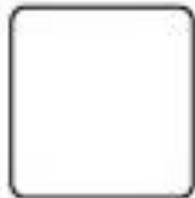

# LOGICKÉ MYŠLENÍ

Spočítej obrázky v levém rámečku a do rámečku vpravo udělej stejný počet puntíků.

Spočítej, kolik je čeho na obrázku a tolik nakresli puntíků do kolečka pod obrázkem. Čeho je nejvíc a čeho nejmíň?
